

PRACTICE LEARNING ENVIRONMENT PROFILE

Learning Environment (Care Group): TRAUMA & ORTHOPAEDICS Division: D

GENERAL INFORMATION

Educa	ation lead	Lorraine Parker	
Conta	ct details	Lorraine.Parker@uhs.nhs.uk	
UHS	VALUES	PATIENTS FIRST WORKING TOGETHER ALWAYS IMPROVING	Please reflect on what these values mean to <u>YOU</u>

USEFUL LINKS

INDUCTION INFORMATION

Trust induction	Your induction may take one of the following formats: Trust induction, divisional induction, or placement induction. Please ensure completion of any relevant items in your assessment of practice document linked to induction/orientation.	
Orientation / useful documents	UHS website	
Expectations	 Professional behaviour Willing to learn Punctuality Represent university and UHS Adherence to appearance policy (below) 	 Wear ID badge always Theatre induction Expected to undertake full shift pattern Ensure the student contacts clinical area for details of assigned mentor and shifts prior to placement

PROFILE

WARD / AREA	SERVICE & CLIENT GROUP	LOCATION
F1	Major Trauma Ward	F level, East Wing, SGH
F2	Male and Female Trauma	F level, East Wing, SGH
TAU	Male and Female - Trauma Assessment Unit	F level, East Wing, SGH
F3	Male and Female Trauma (Dementia friendly)	F level, East Wing, SGH
F4	Elective Orthopaedic Ward	F level, East Wing, SGH
Brooke ward	Orthopaedic step-down unit	H level, Princess Anne Hospital
Outpatients	Orthopaedic Outpatients	Royal South Hants Hospital

LEARNER INFORMATION

Work pattern (shifts, start and finish	Early: 07:15-15:15 or F1 07:30-15:30	Late: 12:15-20:15 or 12:00-20:00
times)	Night: 19:45-07:45	Long Days: 07:15-20:15
	All students are expected to work a varie working with their mentors.	ty of shifts including nights and weekends to facilitate
	If you have any additional university days them to your mentor to record on the of	during your placement, please print off the dates and show f duty.
IT and resources	Laptops available on the ward area.	
Staff room / rest room facilities	Breaks can be taken in the sister office at breaks will be allocated to you.	their discretion, in the meeting room or in the canteen;
Common conditions and	Osteo-arthritis, rheumatoid arthritis, frac	tured neck of femur, fractured lower and upper limbs,
assessments	ligament and muscular damage, soft tiss	ue injuries, poly trauma, multi-system injuries, elective

	orthopaedic surgery, plastic surgery.
Common procedures and expertise	Fracture fixation of various bones within the body, hip replacements and knee replacements, ligament
	surgery, basic head injury care, palliative surgery, plastic surgery, and spinal surgery. As UHS has a
	major trauma centre, care of the patient with poly-trauma or multiple injuries is also common.
Common prescribed medications	Analgesia, Anticoagulants and Antibiotics.
Abbreviations and short terms	Abbreviations can be found in the induction pack online with the profile. It is advisable to have
	printed these off and be familiar with them prior to starting your placement.
Specific learning opportunities and	Opportunities to spend time on the placement with the bed manager, trauma nurse specialists, major
multiprofessional working	trauma team, advanced nurse practitioners, plaster room, theatres (once theatre induction is
opportunities	complete), pre-assessment, hip and knee school, physiotherapist, and occupational therapy. Also,
	opportunities to spend time with the spinal nurse specialist, Surgical site surveillance nurse, fragility
	fracture nurse, elective nurse specialist and to attend the plastics clinic. The placement will enable you
	to develop the foundations of nursing care whilst enhancing your skills in pre and postoperative care
	of a Trauma and Orthopaedic patient. It is also an ideal environment for developing acuity skills and
	dealing with patients with multiple injuries.
Recommended reading prior to	An understanding of the skeletal system is essential. A recommended reading list is in the student
placement	pack.
Additional information	On arrival you will be given the name of your Practice Assessor and Supervisors to support you during
	your placement. Shifts will be rostered for the whole of your placement. Any additional appointments
	you may have during the placement need to be highlighted as soon as you are aware of them so that
	they can be recorded on your off duty. Please bring any paperwork relating to appointments with you.

APPEARANCE

REQUIRED STANDARD	RATIONALE
Clothes/designated uniform: All clothes/uniform should	Professional appearance.
be smart and in good repair. An overall professional appearance which cannot be deemed offensive to patients, colleagues and the public should be maintained e.g. no low necklines, bare midriffs, very short skirts or potentially offensive slogans or tattoos. No denim, leggings, flip flops or strappy vest tops to be worn. The only exception to these standards for clinical environments is where health and safety legislation require a person to wear specialist protective clothing for health and safety purposes.	Health and safety regulations
Hair: Must be clean, neat, and tidy and tied back off the face and off the	Potential for wound contamination from loose hair. Providing hair is clean
collar. Hair must not be able to fall forward onto patients. Hair accessories	and tidy the risk of dispersal is minimal. When hair is touched micro-
and fastenings should be discreet. Any headwear worn for religious	organisms on the hands will transfer to the hair and from hair to hands,

with the overall corporate appearance. Fingernalis: Must be clean and short. Nail varnish, acrylic nails and false nails must NOT be worn. Jewellery: Rings: Only one plain metal band ring may be worn. Watches: No wristwatches are to be worn in the clinical environment. Medic-alert jewellery is not to be worn on the wrist (but could be attached to uniform) and must be cleanable, plain and discreet. Firegrings: Earrings: one pair of small plain metal studs only should be worn. All new visible body pieringing must be ecvered with a blue plaster until the wound has healed. No other visible piercings are allowed. ID Badge: As for all staff Trust ID Badges must be worn at all times in a good state of repair and ideally have a non slip tread. Shoe style and colour must be in keeping with the overall uniform style. Only staff waering scrubs may wear white/black shoes/clogs or 'crocs' (without holes). Theatre footwear may be of various colours Footwear for ward based staff should be soft sold to reduce the level of noise particularly at night. In some areas protective footwear must be worn and be plain black or natural colour. In the case of extreme hot weather, deviations from this policy will be communicated to staff by the appropriate authorising manager / professional land. Personal Hygienes: Staff must now word. Fingernalis: Must be clean and short. Nail varnish, acrylic nails and false in word false are to be worn in the policy with stones are a heazardous and may cause trauma to patients Stones in jewellery may be been shown to colonise with micro-organisms (Hoffman et al 1985) Rings with stones are heazardous and may cause trauma to patients stones in jewellery may be been shown to colonise with micro-organisms (Hoffman et al 1985) Rings with stones are heazardous and may cause trauma to patients of patient and patients of the following reasons: Jewellery, even plain gold bands (weedding rings) have been shown to colonise with micro-organisms (Hoffman et al 1985) Rings with stones are heazardous and may c		
Fingernalis: Must be clean and short. Nail varnish, acrylic nails and false nails must NOT be worn. Jewellery: Rings: Only one plain metal band ring may be worn. Watches: No wristwatches are to be worn in any clinical environment. Medicaeler jewellery is not to be worn on the wrist (but could be attached to uniform) and must be cleanable, plain and discreet. Piercings: Earrings: one pair of small plain metal studs only should be worn. All new visible body piercings must be covered with a blue plaster until the wound has healed. No other visible piercings are allowed. ID Badge: As for all staff Trust ID Badges must be worn at all times in a good state of repair and ideally have a non slip tread. Shoe style and colour must be in keeping with the overall uniform style. Only staff wearing scrubs may wear white/black shoes/clogs or crocs' (without holes). Theatre footwear may be of various colours Footwear for ward based staff should be soft solied to reduce the level of noise particularly at night. In some areas protective footwear must be worn. Belts/Epaulettes: Belts should not be worn when involved in direct patient. To conform to Trust Security Policy Shoes in a poor state of repair and those with no tread are a safety risk. Staff working in a clinical area must take noise issues into account regarding their footwear. Health and Safety statutory requirement. Risk of trauma to patients. Stones in jewellery, even plain gold bedands (wedding rings) have been shown to colouse with any flincal environment. Medicaeting have be azardous for the following reasons: Jewellery, even plain gold bedands (wedding rings) have been shown to colouse with more reasonable, plan staged beands (wedding rings) have been shown to colouse than during the attention of the staged with a blue plaster until the wound has healed. No other visible piercings are allowed. To conform to Trust Security Policy Shoes in a poor state of repair and those with no tread are a safety risk. Staff working in a clinical area must take noise		potentially increasing risk of infection to staff.
Natches: No wristwatches are to be worn in the clinical environment. Mecklaces: No necklaces: No necklaces are to be worn on the wrist (but could be attached to uniform) and must be cleanable, plain and discreet. Piercings: Earrings: one pair of small plain metal studs only should be worn. All new visible body piercings must be covered with a blue plaster until the wound has healed. No other visible piercings are allowed. ID Badge: As for all staff Trust ID Badges must be worn at all times in a clearly visible Footwear: Must be clean, plain, low heeled, non-porous, enclosed and in a good state of repair and ideally have a non slip tread. Shoe style and colour must be in keeping with the overall uniform style. Only staff wearing scrubs may wear white/black shoes/clogs or 'crocs' (without holes). Theatre footwear may be of various colours Footwear for ward based staff should be soft soled to reduce the level of noise particularly at night. In some areas protective footwear must be worn Belts/Epaulettes: Belts should not be worn when involved in direct patient contact/care. Epaulettes should be clean and laundered at least weekly Tights/Stockings/Socks: If not wearing trousers, tights must be worn and be plain black or natural colour. In the case of extreme hot weather, deviations from this policy will be communicated to staff by the appropriate authorising manager / professional lead. Designated uniform: Must be changed daily and laundered at 60 C and lironed prior to wearing. Makeup and Perfume: Discreet makeup may be worn. Perfume and aftershaves must be subtle Additional garments e.g. fleece/cardigan: must not be worn when cellivering direct patient care. Fleece/cardigans that are worn must be of a plain dark colour, must not have any non Trust logo's and be of smart appearance. Theater jackets may be worn when the environmental temperature is low but	Fingernails: Must be clean and short. Nail varnish, acrylic nails and false
