

Patient information factsheet

Colonoscopy and dilatation of stricture (C4) aftercare advice

You have had a procedure called a colonoscopy and dilatation of stricture today:

_____.

This factsheet explains what to expect after your procedure. If you have any questions or concerns, please contact us using the details at the end of this factsheet.

Before you leave the endoscopy unit

Before you leave the endoscopy unit, we will give you:

- a copy of your consent form
- an advice sheet on what you should and should not do after your procedure
- follow-up advice
- a prescription (if needed)

We will also explain what we have done today and what we have found.

Sedation

As you have had a sedative injection as part of your procedure, your physical and mental capabilities may be temporarily affected. For your own safety and the safety of others, you should follow the advice below:

- You can eat and drink normally immediately after your procedure.
- You may resume taking your usual medications (unless you have been told otherwise).
- Do **not** drive any type of motor vehicle or ride any type of bicycle for at least 24 hours after your procedure.
- Do **not** operate any type of electrical or mechanical equipment/machinery for at least 24 hours after your procedure.
- Do **not** sign any legally binding documents for at least 24 hours after your procedure.
- Do **not** drink any alcohol for at least 24 hours after your procedure.
- Rest quietly for the remainder of the day.

Patient information factsheet

- You **must** have a responsible adult stay with you overnight.
- You should **not** be responsible for young children, disabled or dependent relatives for at least 24 hours after your procedure.

Side effects

After the procedure, it is normal to experience the following side effects:

- windy, cramp-like pain
- a small amount of blood from your back passage (if we removed any polyps (abnormal growths) or if we took any specimens)

These side effects should settle within 24 to 48 hours.

If the pain does not settle or you are at all concerned about your recovery, please contact your general practitioner (GP) or our endoscopy unit using the details at the end of this factsheet.

When to seek urgent medical help

Go to your nearest emergency department if you experience any:

- unexpected or severe pain in your abdomen
- severe bleeding from your back passage

In an emergency, call **999** for an ambulance.

Please remember to take this factsheet with you.

Follow-up care

If you need any follow-up appointments at the hospital, we will send you a letter by post.

If you need to see a GP in the two weeks after your procedure, it is important that you take this factsheet with you.

Contact us

If you have any questions or concerns while in the endoscopy unit, please speak to a member of the healthcare team caring for you.

If you have any non-urgent questions or concerns after leaving hospital, please contact your GP or our endoscopy unit for advice.

Endoscopy unit
